THE season of moral and religious conventions is at hand—the time when the philanthropist hies himself away to some cool retreat, where he can enjoy the pleasure of doing good in the shade while the sinful world continues to pursue the fleeting dollar where the thermometer is cavorting around among the ninetica. THE FALL ELECTIONS.

Four different bills were passed at the recent session of the Illinois legislature in reference to the election of county officers, in order to conform the same to the amendment of the state constitution, adopted by the people at the gen eral election last fall, doing away with annual elections for county officers. The terms of the county officers now in office expire as follows: Judges, treasurers, clerks and county superintendents, Nov. 1881; sheriffs and coroners, 1882; circuit clerks, 1884. The new laws provide that hereafter county judges, counget me proxies an I'll carry a block of ty clerks, sheriffs, county treasurers, ents and state's attorneys shall be electstock for yeh an give you the say on ed in November, 1882, and every tour years thereafter. Coroners are to be elected in November, 1882, to hold two years, and in 1884 and in every four years thereafter. The effect of this stock, an gets proxies, an Garfield legislation is to allow the county judgwins. Then General Garfield strikes es, county clerks, county treasurers and county superintendents now in office to ore an' starts the mill an' makes a big clean up. Conk (bein' a tony rooster) didn't ask Garfield about the block of hold over for one year longer than they were elected for, but will hereafter do away with one unnecessary election for

county officers. As question is being raised as to the constitutionality of the act extending for one year the time for which present officers were elected. Under the constitution, before the amendment was adopted, it was not in the power of the legislature to extend the term of any elective officer, but the amendment to the constitution has now changed the official term of the county judges, clerks and treasurers from two to four years, beginning in 1882. This repeals the provision of the constitution under which new incumbents to these offices were required to have been elected next November. How to provide for the filling of those offices for the year, was necessarily a question for the legislature to decide. It decided to continue in office the present incumbents for one year longer, requiring them to give new official bonds for the extra year. We doubt not, the legislature has done the proper and legitimate thing in the premises—the only thing that could be lone consistently under the peculiar circumstances-by extending the terms of the present incumbents one year, until their successors shall have been constitutionally elected and duly qualified. We are quite confident that those officeseeking politicians who are preparing to contest the legality of the action in the matter by the legislature, will have

ALBANY, N. Y., June 22 .- The Democrats of both houses met in caucus in the senate chamber. Assemblyman Bennett called attention to the sudden and unexpected withdrawal of the candidacy of Senator Jacobs, and asked for an explanation.

Senator Jacobs explained that he had been informed that the governor would declare the votes oast for him for United States senator as void. He said he had, on the moment of being informed of this, determined to withdraw his name from the canvass, The effect, he said, of declaring his vote void would be the election of some Republican candidate who happened to get a majority of a quorum with the Democratic vote omitted.

The Democrats then unanimously nominated Clarkson N. Potter as their candidate for United States senator for the short term, in place of Jacobs, with-

Washington, June 22.-Officials and others here, who are working for a coalition of the Readjusters and Republicans in Virginia, claim that the meeting of the state central committee, held in Richmond yesterday, was not legitimate, on the ground that Chairman Lewis, who was alone empowered to call a meeting of the committee, changed the date from the 21st to the 28th before the committee met. The Coalitionists say that they will have a majority at the meeting on the 28th, and that they will then have direct authority from the president to say that he favors coalition.
